- Leadership

## ABOUT ME

Experienced and skilled IT professional with a proven track record of success in designing, implementing, and maintaining robust IT infrastructures. Adept at leveraging technical expertise to drive operational excellence, optimize system performance, and ensure the highest levels of security. In recent years, I have focused on mobile app development, specializing in Flutter, Dart, and Firebase to build high-performance, cross-platform applications that deliver seamless user experiences. Alongside mobile development, I bring full stack proficiency across frontend technologies

## TECHNICAL SKILLS

### Frontend

- React.js
